**1. IDENTIFICATION OF THE SUBSTANCE / PREPARATION AND OF THE COMPANY / UNDERTAKING**

**Identification of the substance or preparation**
Petroleum Jelly White

**Use of substance/preparation**
High purity Petrolatum is typically used as a blending base in a variety of applications including cosmetic, pharmaceutical, food and general industrial

**Company identification**
Sonneborn Refined Products B.V.
Mainhavenweg 6
1043 AL Amsterdam
The Netherlands
Tel: +31-20-6117475
Fax: +31-20-6111170
E-mail: QEHS@sonneborn.com

**Emergency telephone number**
Tel.: +31.20.611.74.75

**2. HAZARDS IDENTIFICATION**

**EC/GHS Classification** : Not classified as dangerous under EC/GHS-criteria

**Human Health Hazards** : None

**Physico-chemical and environmental hazards and effects** : None

**3. COMPOSITION / INFORMATION ON INGREDIENTS**

4. FIRST AID MEASURES

Swallowing
WHEN MOLTEN ONLY (molten product can cause thermal burns) - Obtain medical attention immediately.

Inhalation
No emergency care anticipated.

Skin contact
WHEN MOLTEN ONLY (molten product can cause thermal burns) - In serious cases, use emergency shower immediately. Immediately flush skin thoroughly with water for at least 15 minutes while removing contaminated clothing and shoes. Obtain medical attention.

Eye contact
WHEN MOLTEN ONLY (molten product can cause thermal burns) - Immediately flush eyes with water and continue washing for at least 15 minutes. Obtain medical attention.

Notes to physician
None

5. FIRE-FIGHTING MEASURES

Extinguishing media

Suitable: Extinguish with:
- dry chemical
- carbon dioxide (in case of small fires)
- water fog
- foam
- sand or earth

Unsuitable: Do not use water jet.

Special fire fighting procedures
Do not direct a solid stream of water or foam into burning molten material; this may cause spattering and spread the fire.

Special protective equipment for firefighters
Self-contained breathing apparatus.

Unusual fire and explosion hazards
Following products may be produced during a fire: Oxides of carbon.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Wear suitable protective equipment.

Environmental precautions
Avoid runoff to sewers or waterways. Dike area of spill to prevent spreading and pump liquid to salvage tank. Allow remaining liquid to solidify, then shovel into containers. Waste: avoid washing into watercourses. Use methods consistent with local regulations or incinerate.

Methods for cleaning up
Take up mechanically. Collect in suitable containers. Dike to contain spill or absorb with inert material (e.g. sand, earth, ...). Stop the leak if it can be done without risk. Clean up with solvent.
7. HANDLING AND STORAGE

HANDLING
Do not handle at temperatures > +90 °C

Ventilation
General (mechanical) room ventilation is expected to be satisfactory for use at room temperature.

STORAGE

Storage requirements
Keep away from heat, sparks and flame. Do not store at temperatures: > 25 °C
Store protected from light

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

EXPOSURE LIMIT VALUES
No exposure limits have been established

OCCUPATIONAL EXPOSURE CONTROLS

Respiratory protection
None expected to be needed.

Hand protection / protective gloves
Personal protective: WHEN MOLTEN ONLY.
Wear gloves impervious to this material

Eye protection
Personal protective: WHEN MOLTEN ONLY.
Safety glasses.
Facieshield

Skin protection
Personal protective: WHEN MOLTEN ONLY.
Overalls

Environmental Exposure Controls
None expected to be needed

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical state : Semi-solid
Color : White
Odor : None

Important health, safety and environmental information
Flash point : > 170 °C Method: ASTM D93
Upper explosion limits : Not determined
WHITE FONOLINE H

Lower explosion limits: Not determined
Vapor pressure: < 0,1 hPa at 20 °C
Density: 0,79 - 0,85 g/cm3 at 100 °C
Bulk density: Not available
Solubility in water: Negligible
Kinematic viscosity: 5 - 30 mm2/s at 100 °C
Vapor density (air=1): None specified
Evaporation rate (Butyl Acetate=1): Not applicable

Other information
Melting point: 38 - 80 °C
Method: ASTM D 127
Autoignition temperature: Not determined
Percent volatiles: Not applicable

10. STABILITY AND REACTIVITY

STABILITY
Stable.

Conditions to avoid
Extremes of temperature and direct sunlight

Materials to avoid
Strong oxidizing agents.

Hazardous decomposition products
No hazardous decomposition products to be formed during normal storage
Combustion may produce carbon monoxide and/or carbon dioxide.

11. TOXICOLOGICAL INFORMATION

GENERAL
No information available.

Carcinogenicity:
Not classified as a carcinogen. Nota N applies since the full refining history is known and it can be shown that the substances from which the petroleum jelly was produced are not a carcinogen
12. ECOLOGICAL INFORMATION

Most hydrocarbon components of these substances will have little or no tendency to partition to air. The half lives for degradation of these hydrocarbons by reaction with hydroxyl radicals, in the troposphere, under the influence of sunlight, will all be less than one day, by extrapolation from the data quoted by Atkinson. Accordingly, any hydrocarbon material which does partition to air will be rapidly photodegraded. (Ref.: Atkinson, R., Gas-phase tropospheric chemistry of organic compounds: a review, Atmos. Environ., vol 24 A, pp. 1-41, 1990)

13. DISPOSAL CONSIDERATIONS

Dispose of in accordance with local regulations or incinerate.

14. TRANSPORT INFORMATION

ADR/RID

(when transported <100°C) This product is not regulated by ADR.

Proper shipping name (when transported >100 °C) UN3257 ELEVATED TEMPERATURE LIQUIDS, N.O.S. (9), III

Class 9 (M9)

UN No. 3257

Packing group III

Hazard No. 99

Label 9

Technical description Petroleum Jelly

IMDG

This product is not regulated by IMDG.

ICAO

This product is not regulated by ICAO.

15. REGULATORY INFORMATION

EC/GHS classification

According to EC/GHS-regulations this product is not classified or labelled.

Chemical Inventory

Europe : This product is on the EINECS inventory.

16. OTHER INFORMATION

Recommended uses and restrictions

Please consult the product and/or application information bulletins for this product.

A vertical line in the left margin of the report indicates a change compared to the previous version.
This Safety Data Sheet conforms to EC Directive 1907/2006 and amendments.

The opinions expressed herein are those of qualified experts within Sonneborn Refined Products B.V.. We believe that the information contained herein is current as of the date of this Safety Data Sheet. Since the use of this information and of these opinions and the conditions of use of this product are not within the control of Sonneborn Refined Products B.V., it is the user's obligation to determine the conditions of safe use of the products.
