4. FIRST AID MEASURES

**Swallowing**
Do not induce vomiting. Obtain medical attention immediately. This is not a toxic substance.

**Inhalation**
No emergency care anticipated. If mineral oil mist is present, see Section 8.

**Skin**
No emergency care anticipated. Wash skin with soap and water.

**Eye contact**

**Extinguishing media**
**Suitable:** Extinguish with:
- dry chemical
- carbon dioxide (in case of small fires)
- water fog
- foam
- sand or earth

**Unsuitable:** Do not use water jet. Oil will float on water and can spread any fire.

**Special firefighting procedures**
Do not direct a solid stream of water or foam into burning material; this may cause spattering and spread the fire.
If a rail or tank truck is involved in a fire, ISOLATE for 800 meters (0.5 mile) in all directions. Shut off fuel to fire if it is possible to do so without hazard. If this is impossible, withdraw from the area and let the fire burn out under controlled conditions. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tank due to fire.

**Special protective equipment for firefighters**
Self-contained breathing apparatus.

**Unusual fire and explosion hazards**
Following products may be produced during a fire: Oxides of carbon.

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions**
Wear suitable protective equipment.
Environmental precautions
Avoid runoff to sewers or waterways. Dike area of spill to prevent spreading and pump liquid to salvage tank. Waste: avoid washing into watercourses. Use methods consistent with local regulations or incinerate.

Methods for cleaning up
Dike to contain spill. Absorb on inert material such as sand, earth, vermiculite. Stop the leak if it can be done without risk. Floor may be slippery; use care to avoid falling.

7. HANDLING AND STORAGE

HANDLING
Do not handle at temperatures >+40°C, unless wearing appropriate protective equipment.

Ventilation
General (mechanical) room ventilation is expected to be satisfactory for use at room temperature.

STORAGE
Storage requirements
Keep away from heat, sparks and flame. Do not store at temperatures: >+40°C without proper safety review of storage equipment. Store protected from light.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

OCCUPATIONAL EXPOSURE CONTROLS
Respiratory protection
None expected to be needed. If used in a way that generates a vapor/mist, wear an organic vapor respirator.

Hand protection/protective gloves
Wear oil resistant gloves.

Eye protection
Face shield or chemical splash goggles in case of splashing.

Skin protection
Wear protective clothing, such as long sleeves to minimize skin contact.

Environmental Exposure Controls:
Store in a second containment to catch leakages
